

Results Summary- Environmental Air Quality PM- 10

Nano-Z Coating LTD.

Quarry Hartuv Cement Ltd.

Test Report No : NNO101-3

Site Address:

Quarry Hartuv Cement Ltd.

Date of Sampling:

10-14/10/21

To the request of:

Nano-Z Coating LTD.

Date of Report:

09/11/2021

Report Editor: Evgeniya Shteinfer
Report Approval: Oz Amit

Version 3
Replacement of NNO101-3 from 27/10/2021

1. General:

Sampling was performed to the request of Nano-Z Coating LTD.

2. Objective:

Receiving data regarding total suspended particulate matter PM-10.

3. Sampling Methods:

Sampling methods are performed according to the US Environmental Protection Agency (USEPA) and others as needed. All methods are acceptable by the Israeli Ministry of Environment Protection. All equipment was calibrated prior to sampling.

All testing was performed by AirLab Air Testing LTD. Methods conducted under ISO-17025 are marked " * ".

Analysis was carried by AirLab Air Testing LTD according to ISO-17025.

Sampling of Total Suspended Particulate Matter (TSP) PM-10 IO-2.1*:

PM-10 sampling was conducted on a method glass filter. Particle amount was determined by gravimetric analysis at AirLab Air Testing LTD. Sampling device: High Q HVS device with volumetric flow rate control. Sampling device was calibrated prior to sampling.

4. Location:

Sampling duration: 24 Hours
 Number of Points: 3
 Series: 4

Location of sampling points was selected by team sampling lead and according to facility representative.

#	Location	Coordinate (ITM)	
1	Entrance	630093	201936
2	Center	630171	201957
3	North	630199	201983

Map of points locations and photos of sampling points in following attachments.

Meteorology:

During the sampling meteorological data was observed. A station was set up near point 1.

Notes for sampling:

No unusual notes.

Results reported relate only to the items tested, sampling locations and time and to the environmental conditions presents at that time.

This report can only be used in it's full.

The use of ISRAC symbol relates to tests/calibrations which are included in the organization scope of accreditation, and performed according "to the accreditation rules as detailed in the accreditation certificate

ISRAC is not responsible for the results of the tests performed by the organization/ research facility and accreditation/ recognition does not "constitute a certificate of approval of any item, system or process tested
